

A scatter plot illustrating two overlapping clusters of data points. The x-axis ranges from -20 to 10, and the y-axis ranges from -10 to 10. The green cluster is centered around (-2, -2) and the pink cluster is centered around (1, 1). Shaded ellipses represent the covariance matrices for each cluster, showing their orientation and spread. The green ellipse is larger and more elongated than the pink one. The two ellipses overlap significantly in the region around (0, 0).
