

Table of Contents

	Supplementary Figures
S1	Soft power threshold calculation
S2	Cluster Dendrogram of module distribution
S3	Hierarchical clustering dendrograms of module relationship at 10-16 weeks
S4	Hierarchical clustering dendrograms of module relationship at 36-38 weeks
S5	Hierarchical clustering dendrograms of module relationship at postpartum
S6	Consensus Modules Similarity and Module Preservation

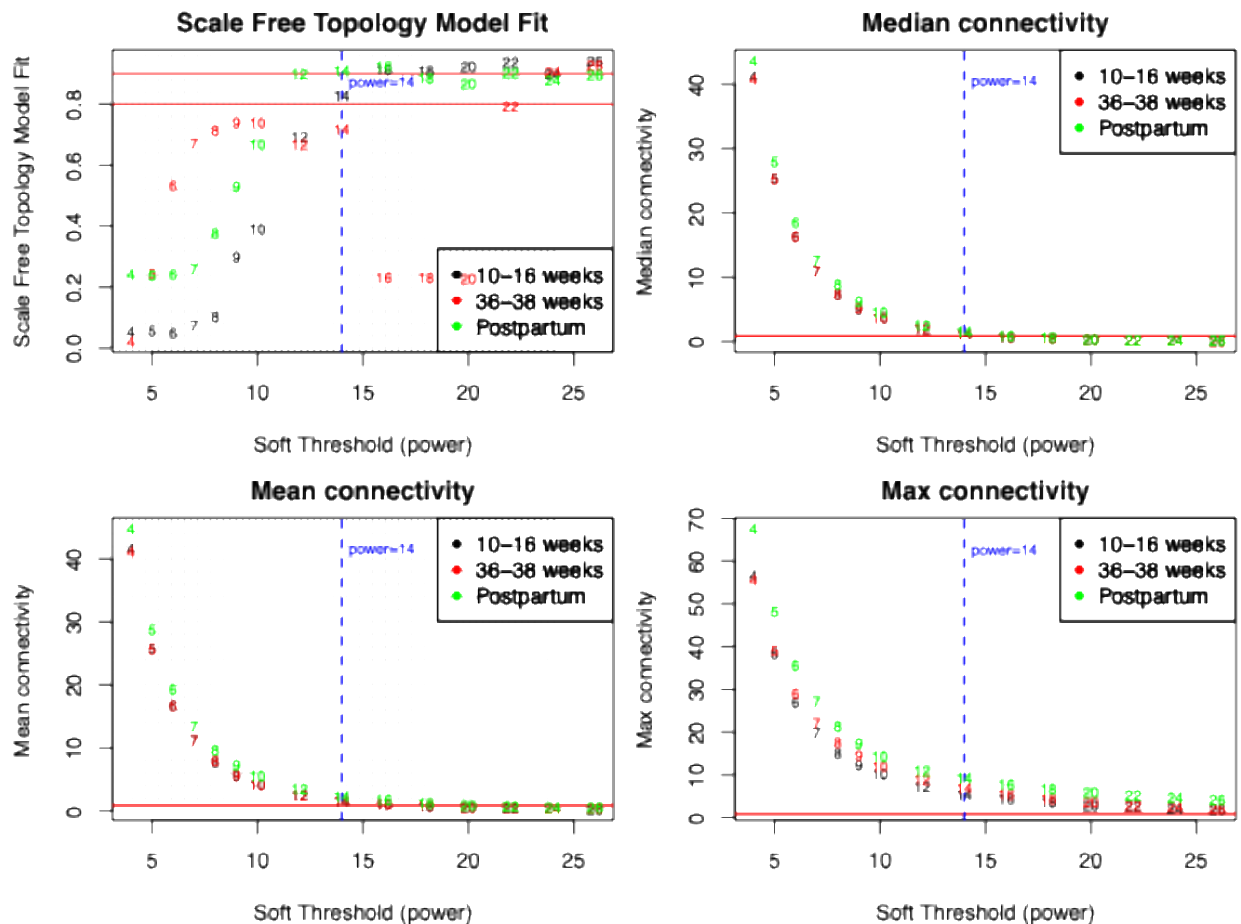

Figure S1 - Soft power threshold calculation

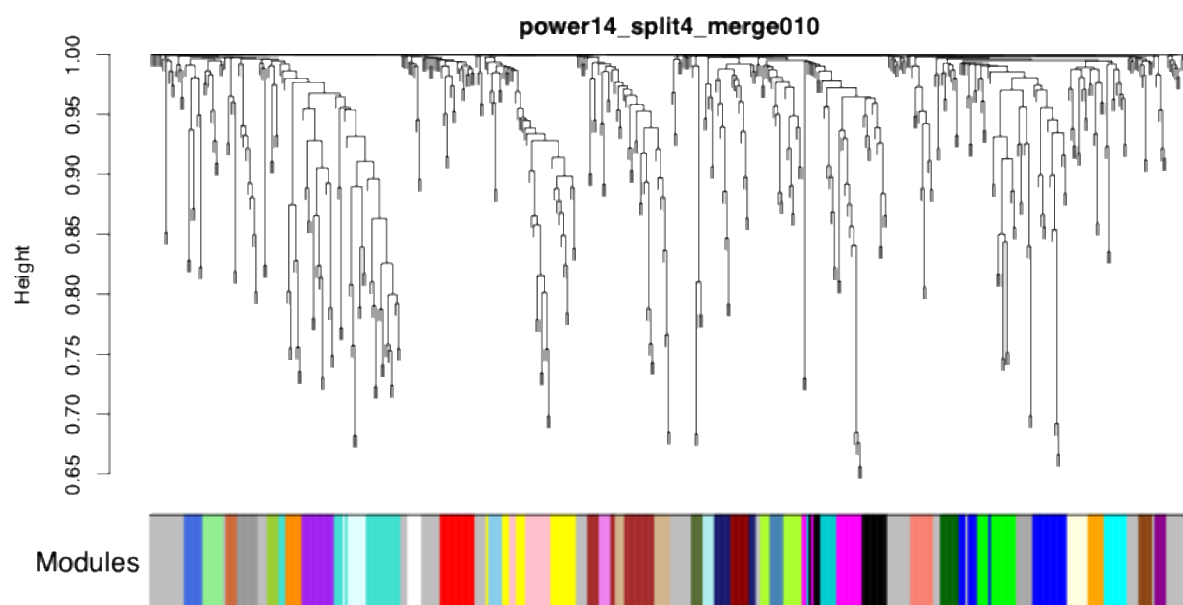

Figure S2 - Cluster Dendrogram of module distribution

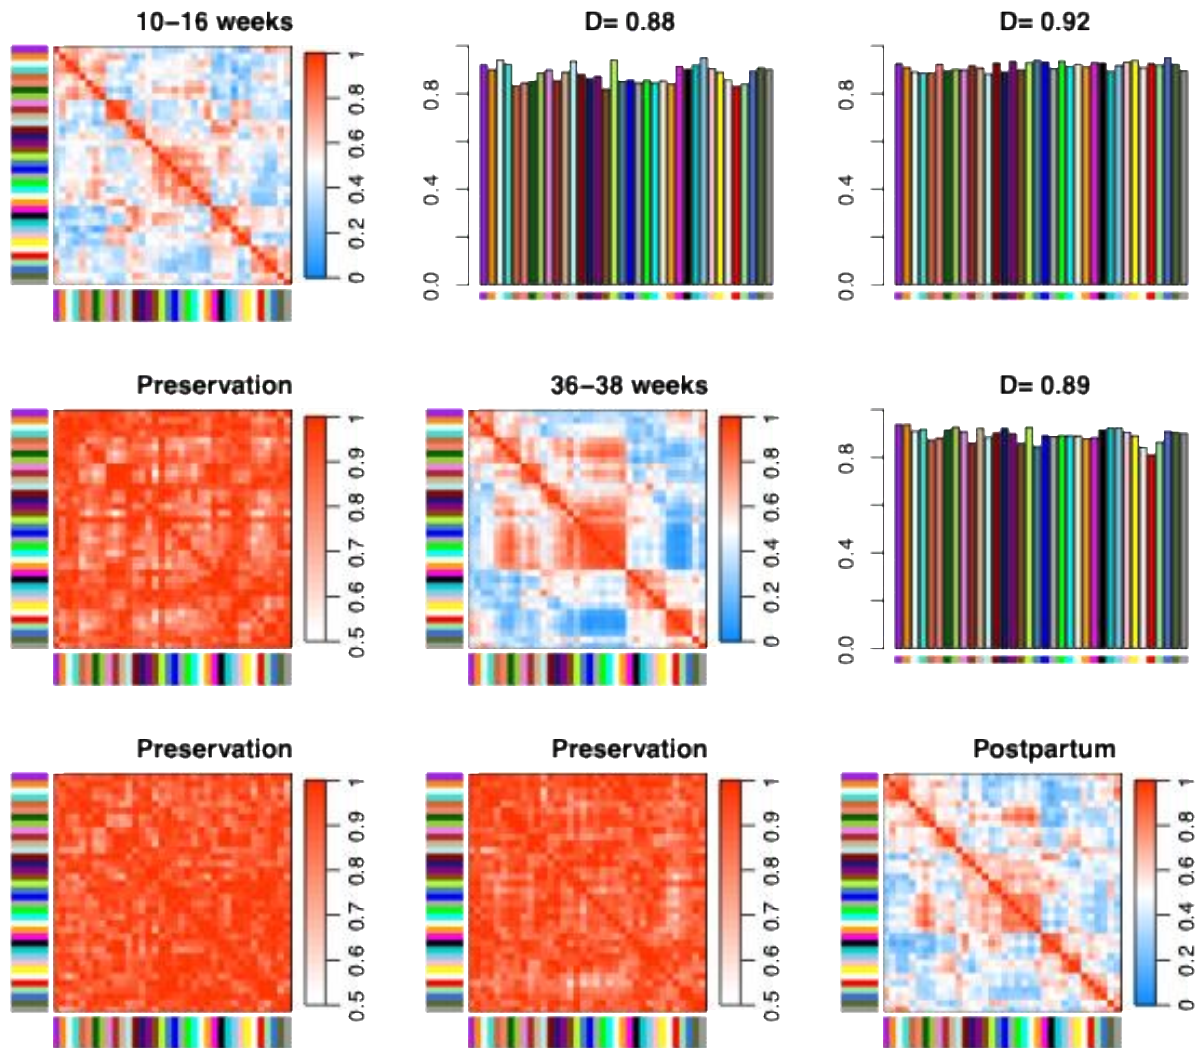

Figure S6 – Consensus modules similarity and module preservation

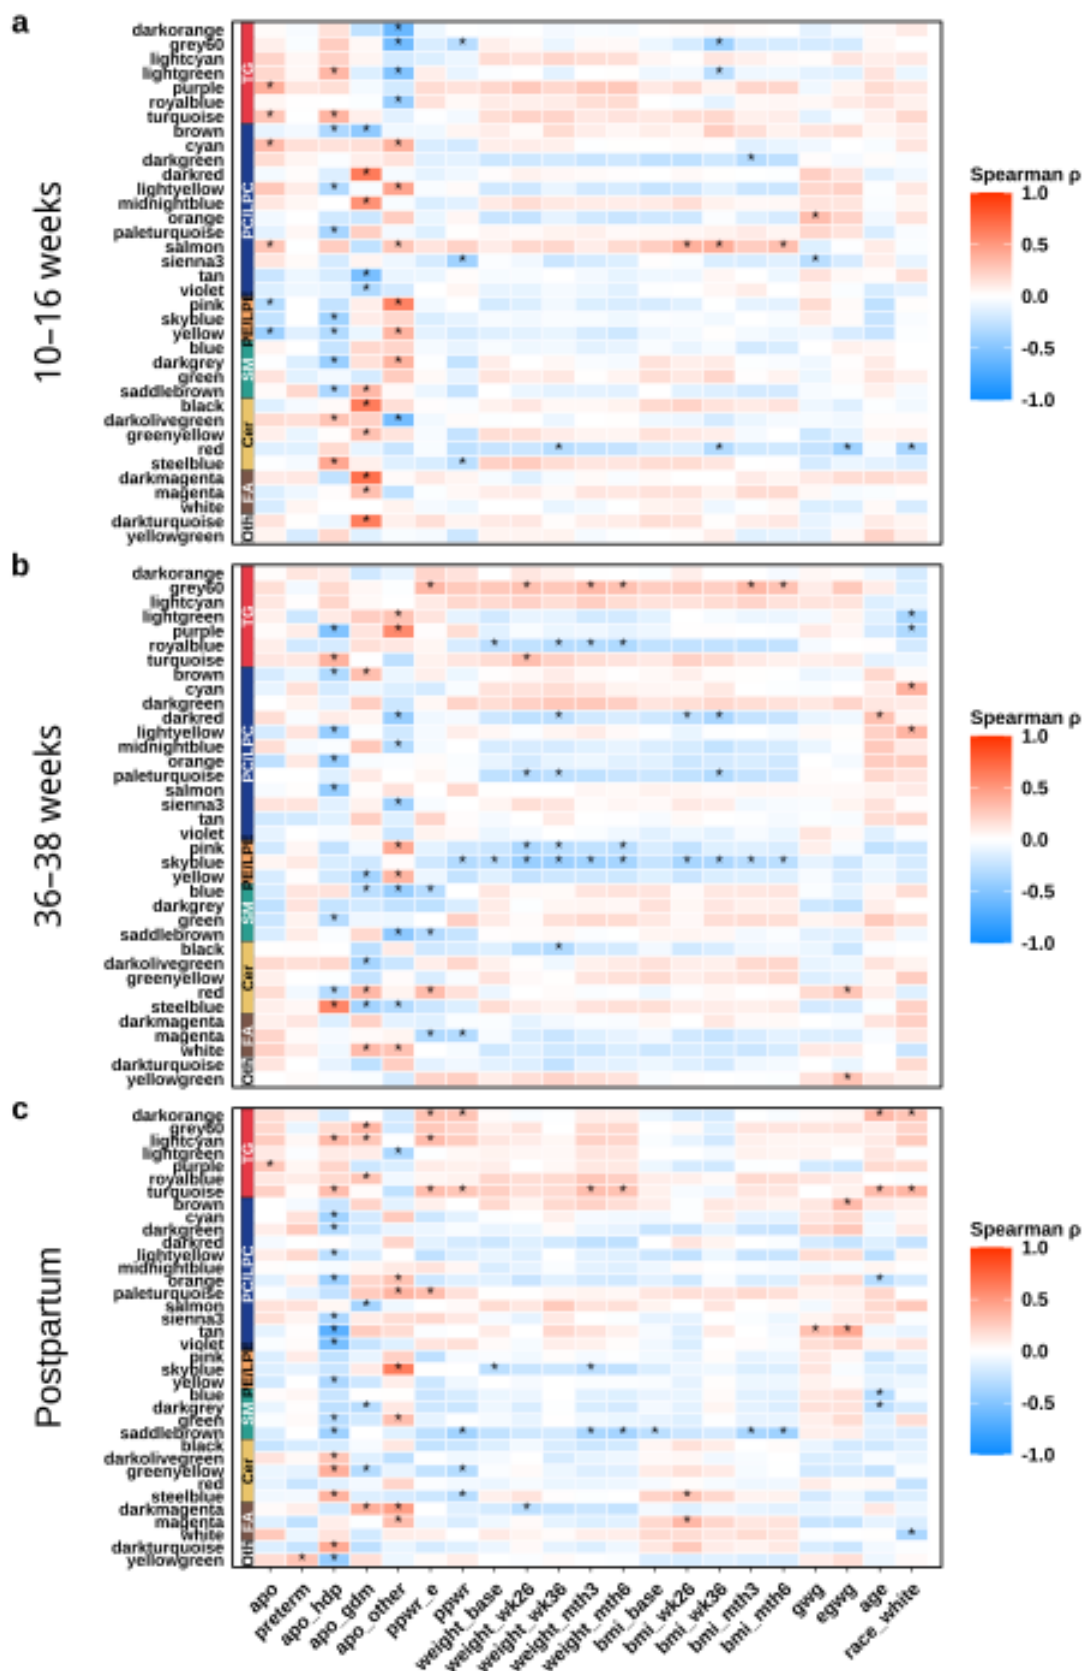

Figure S – Module-Trait Correlation with intervention group adjusted

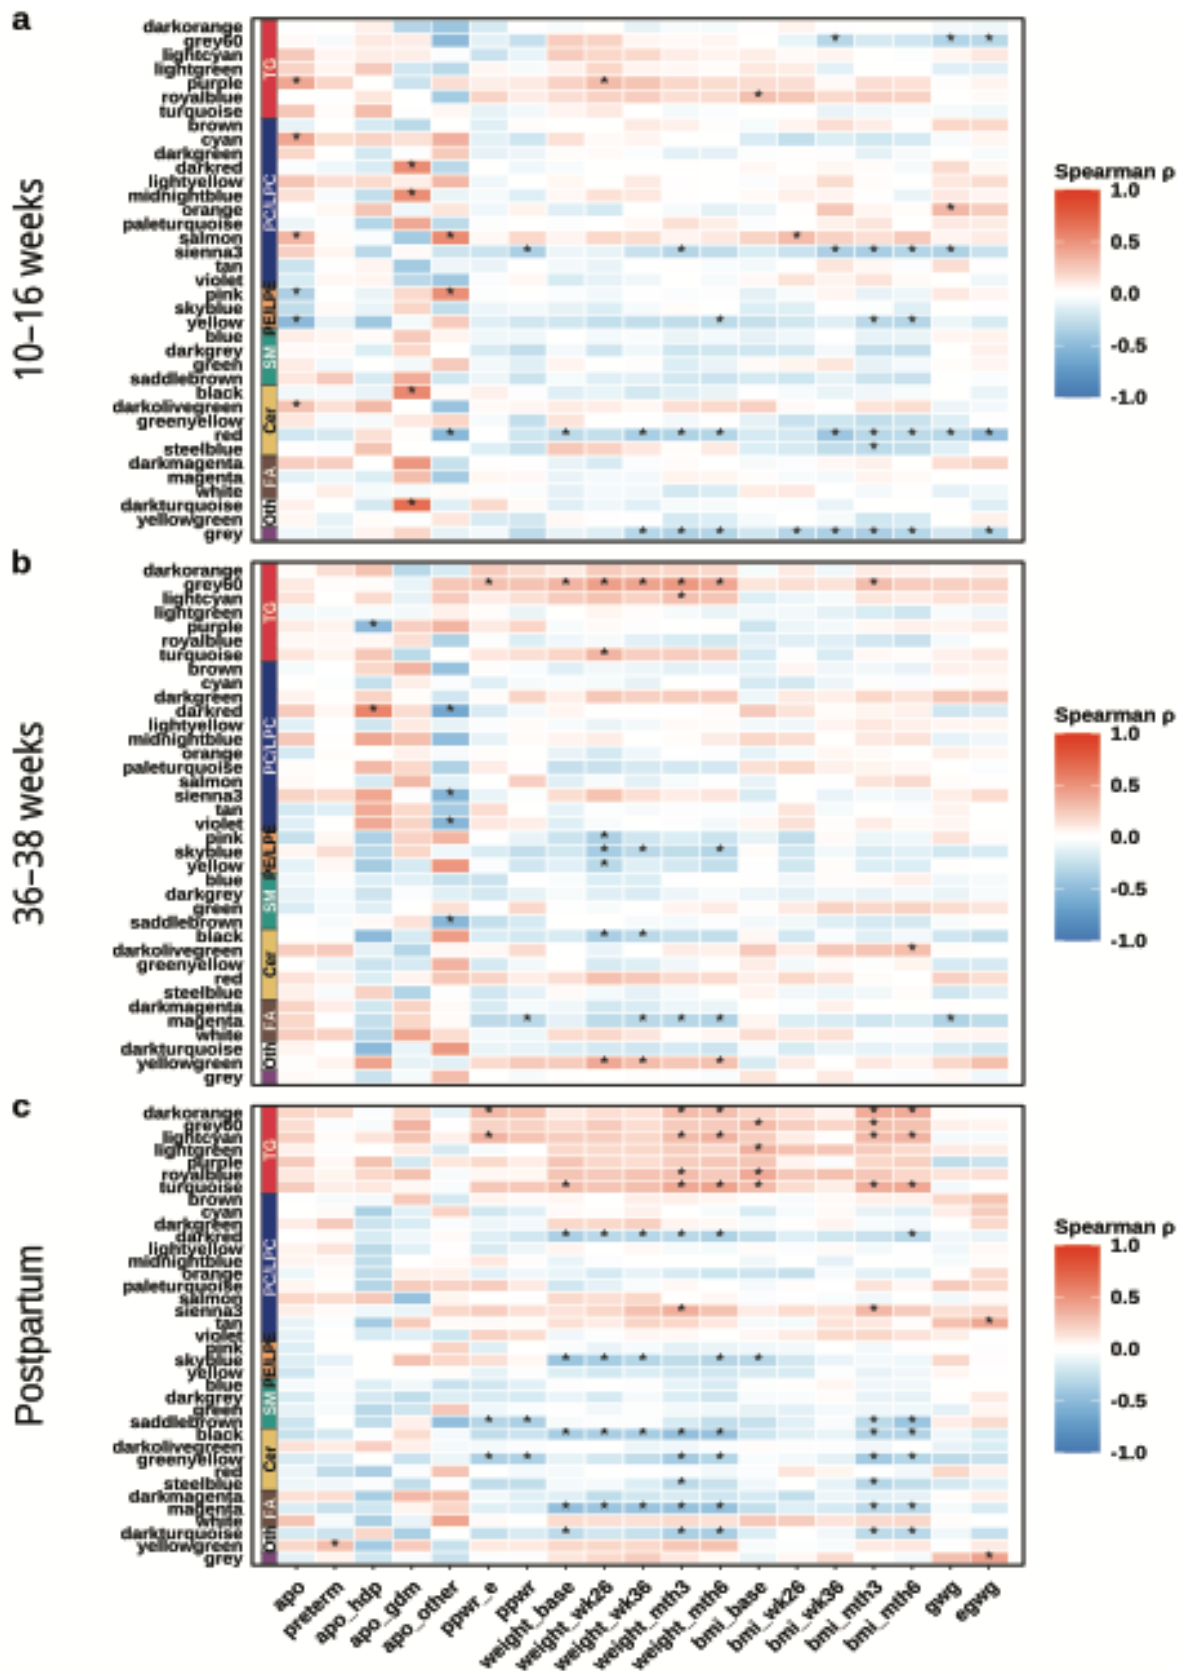

Figure S – Module-Trait Correlation with covariates adjusted (age, BMI at signup, race, group)

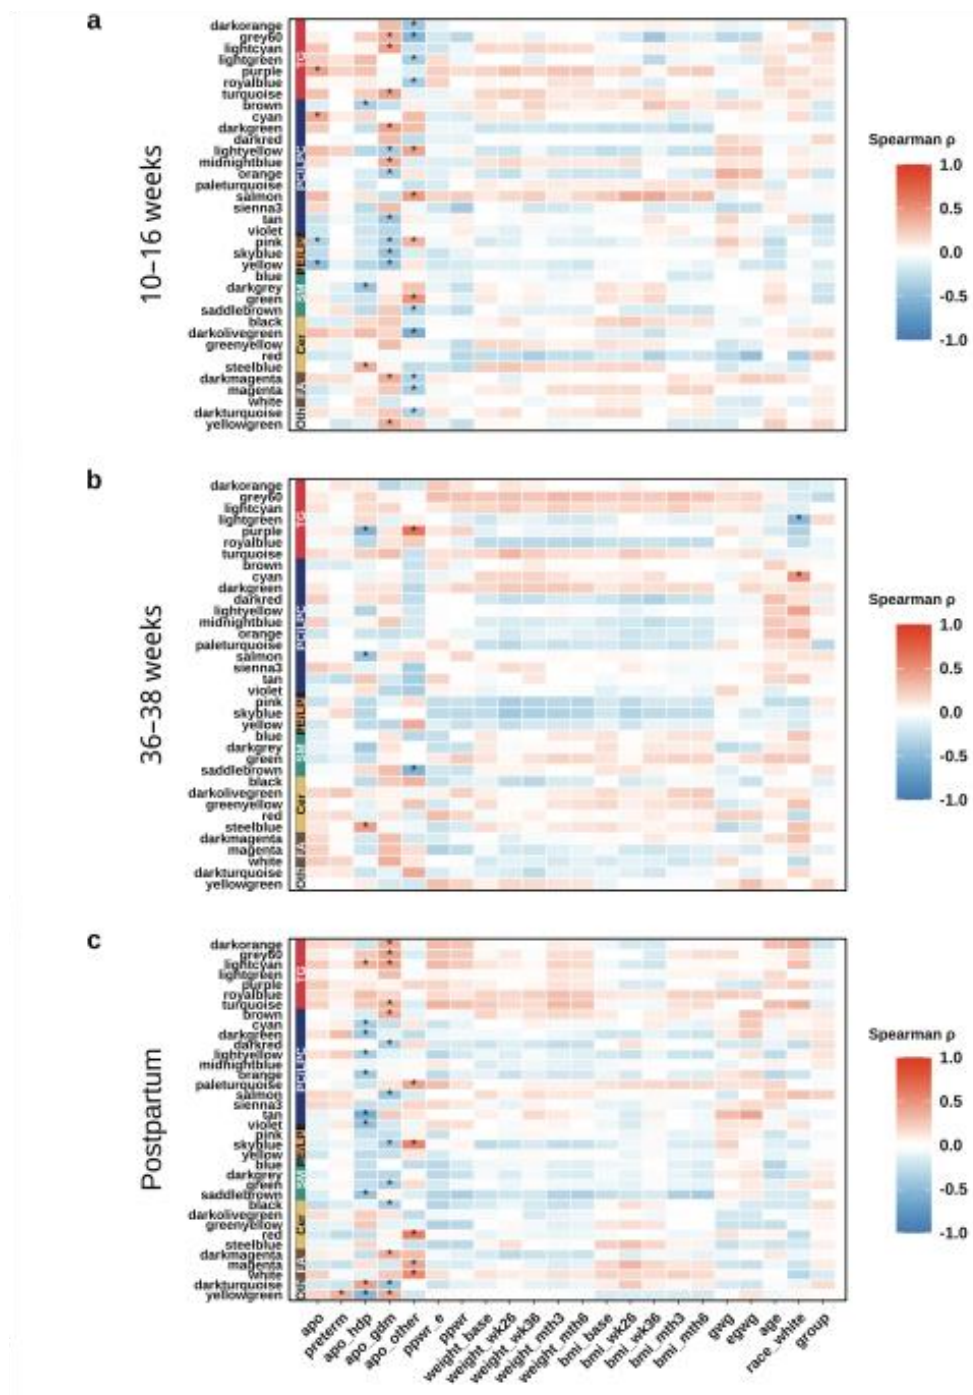

Figure S – Module-Trait Correlation with FDR

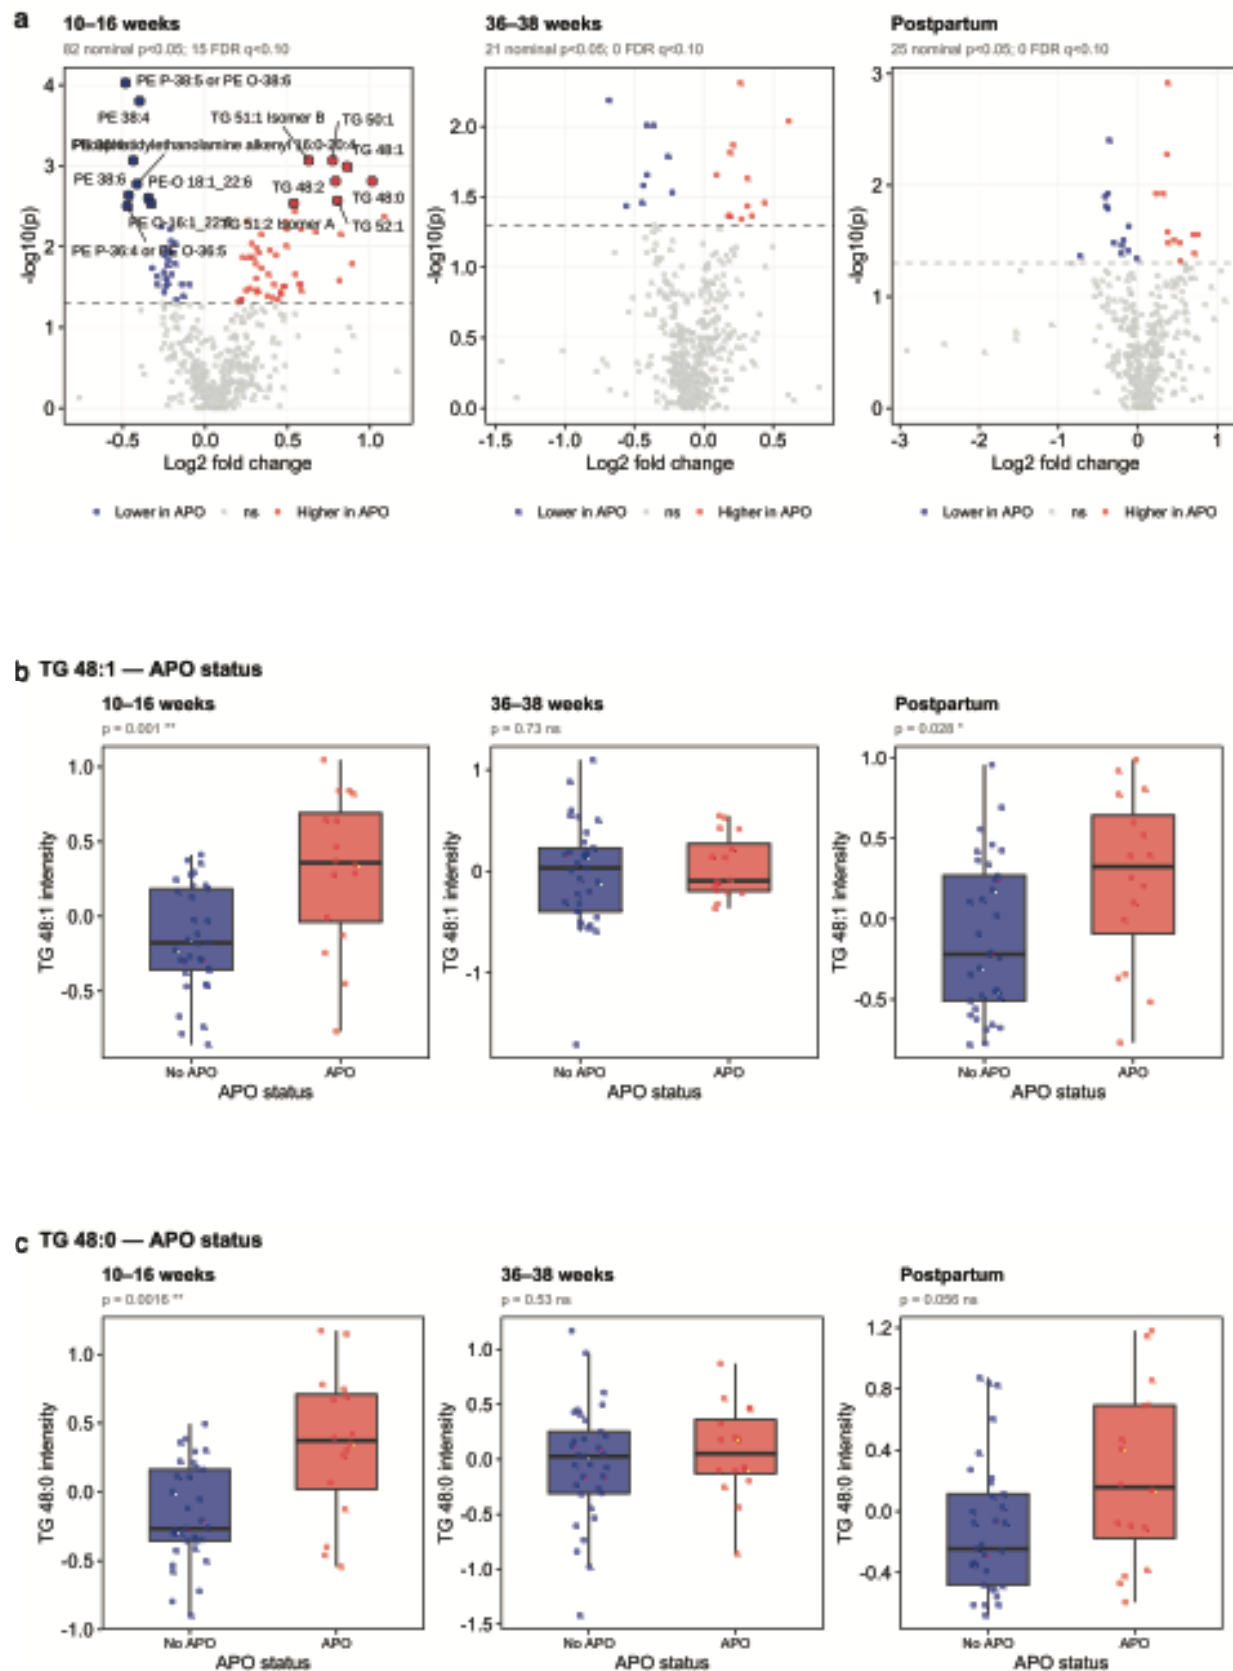

Figure S – Differential lipid analysis APO full

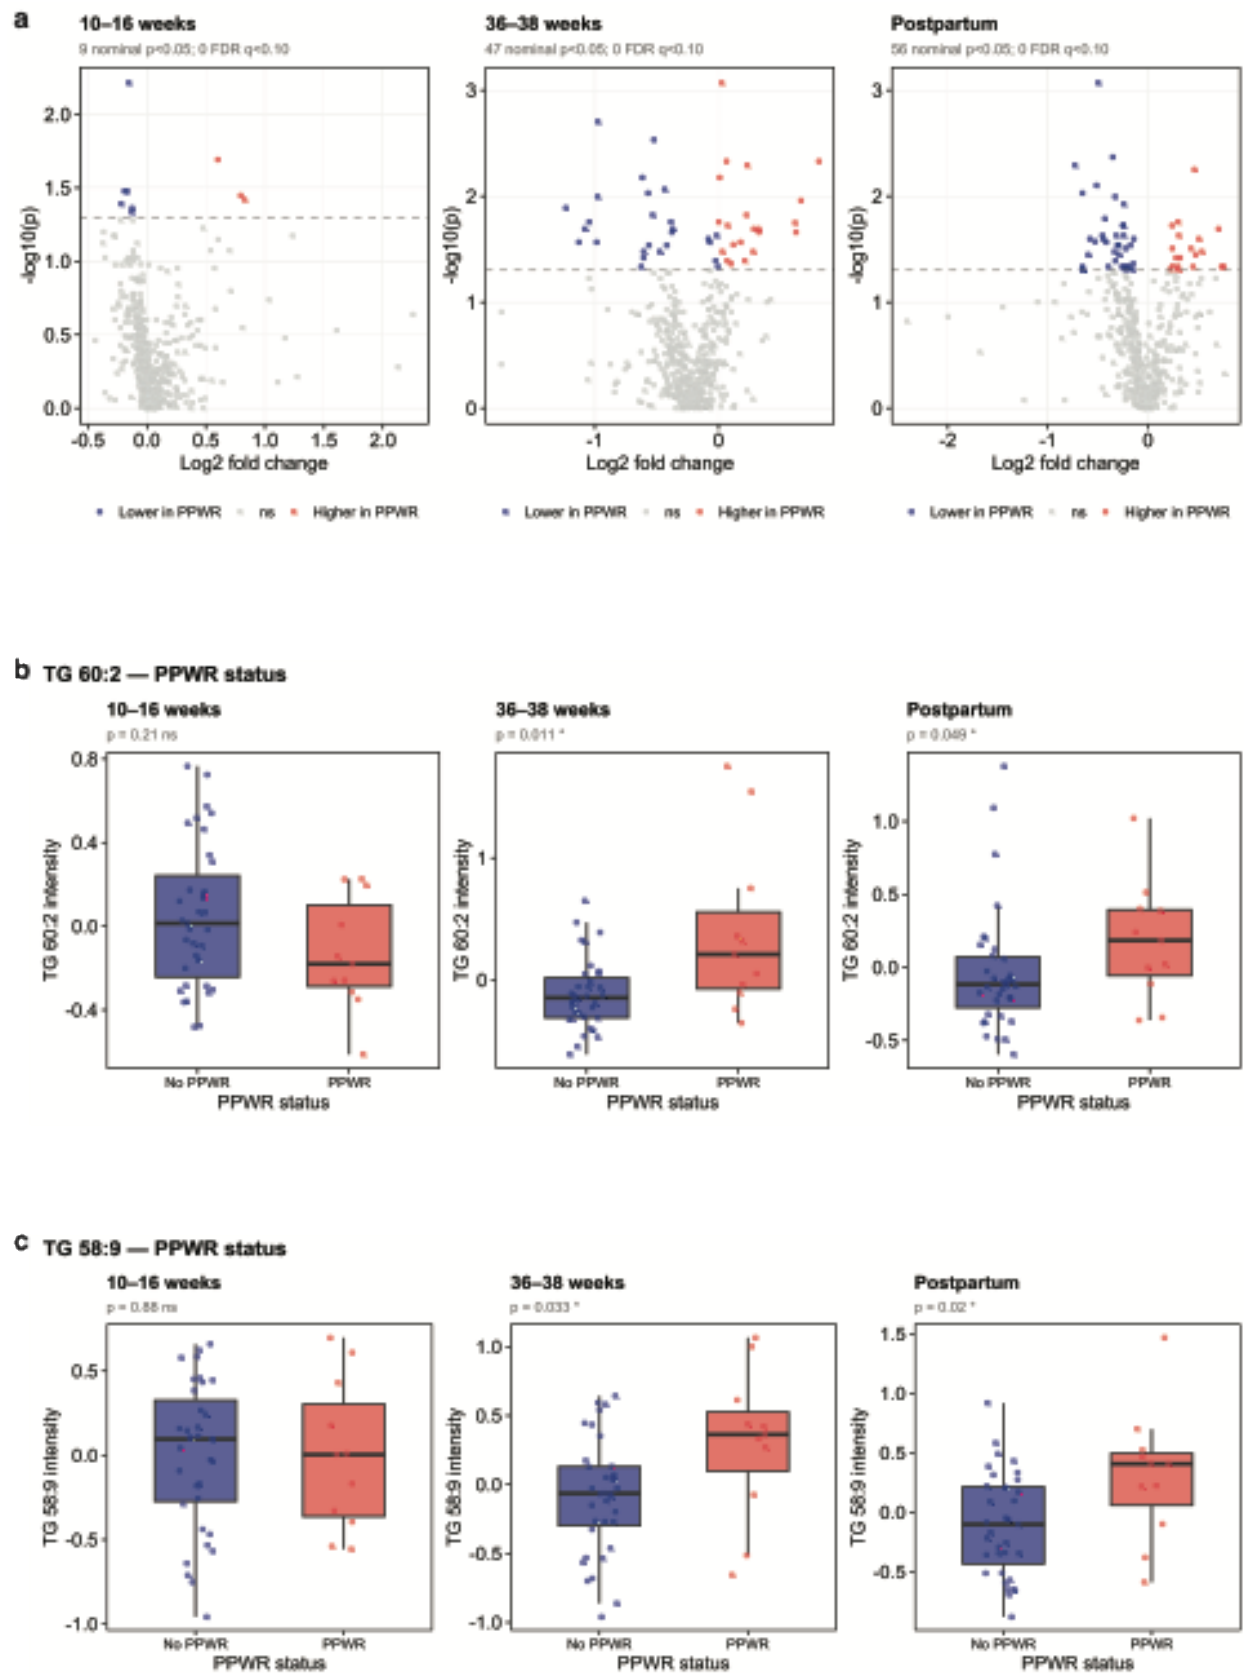

Figure S – Differential lipid analysis APO 48 samples

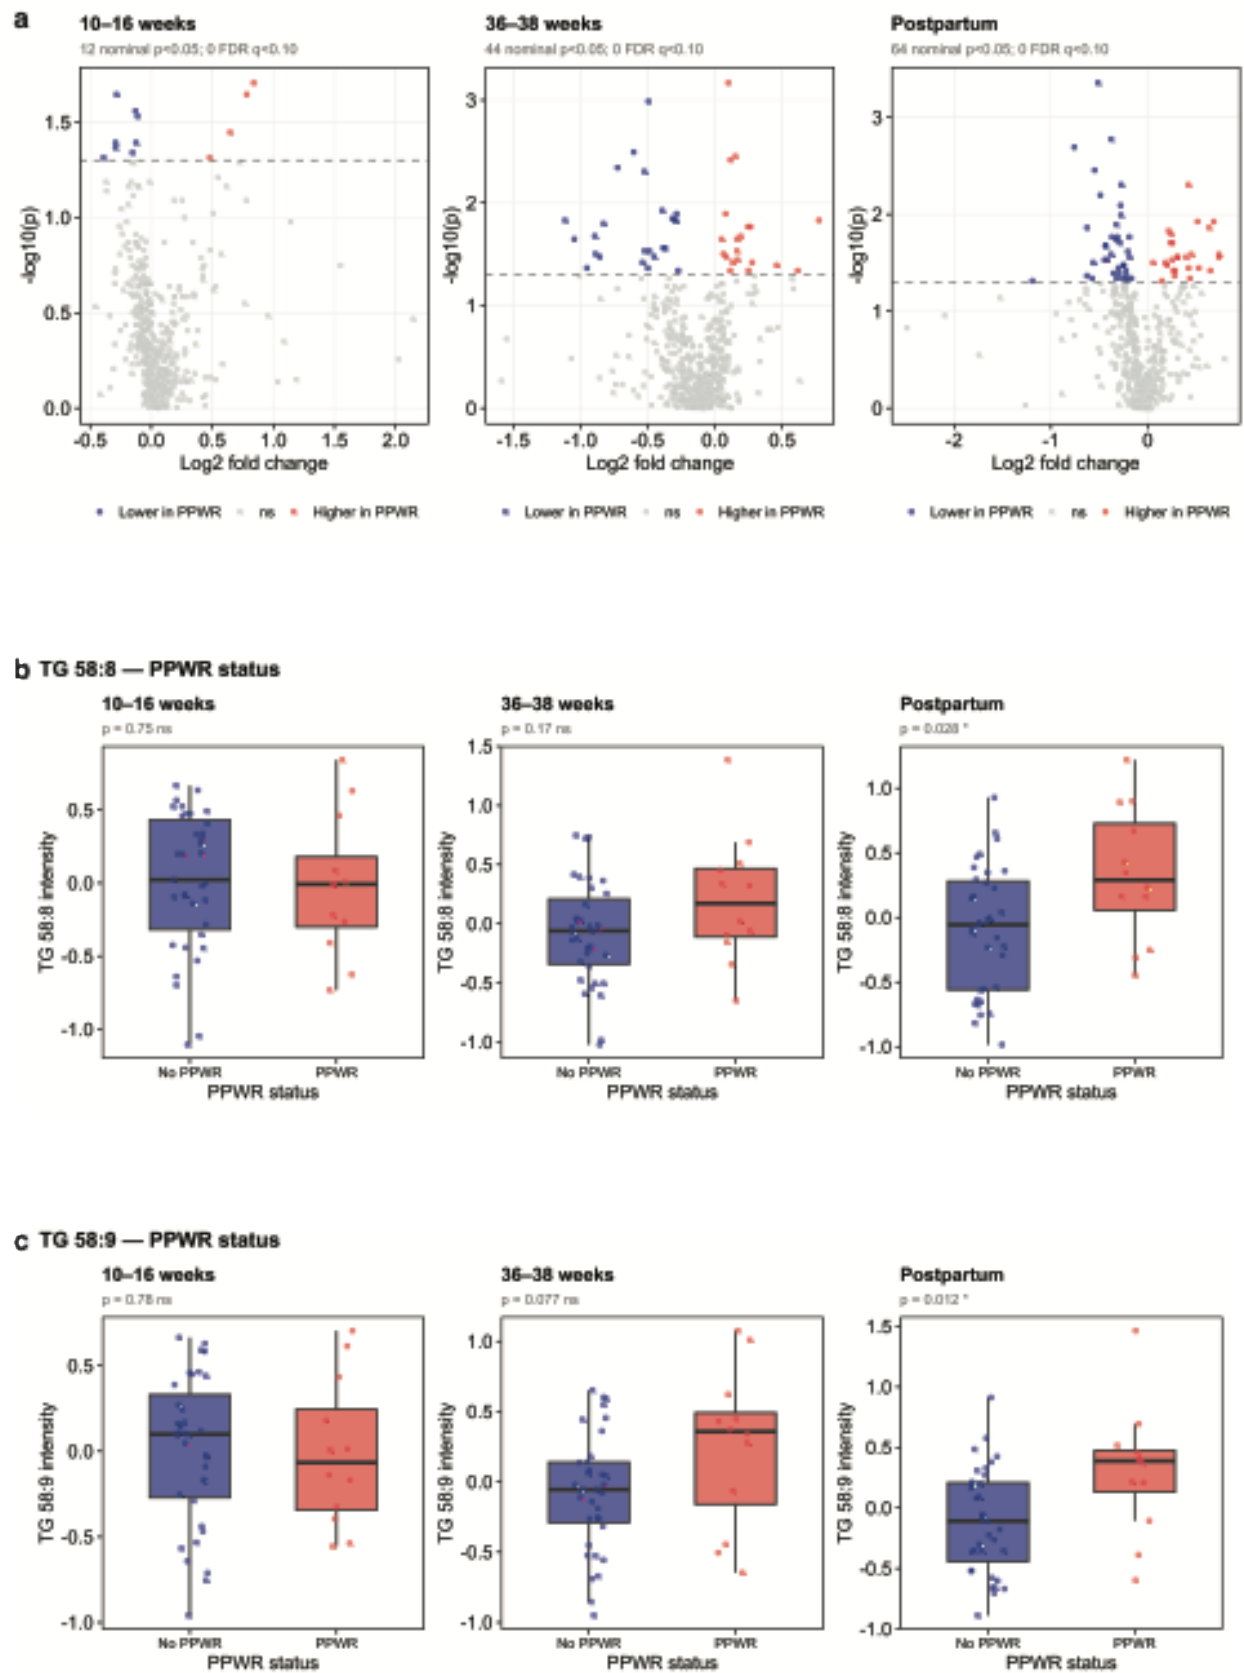

Figure S – Differential lipid analysis PPWR full

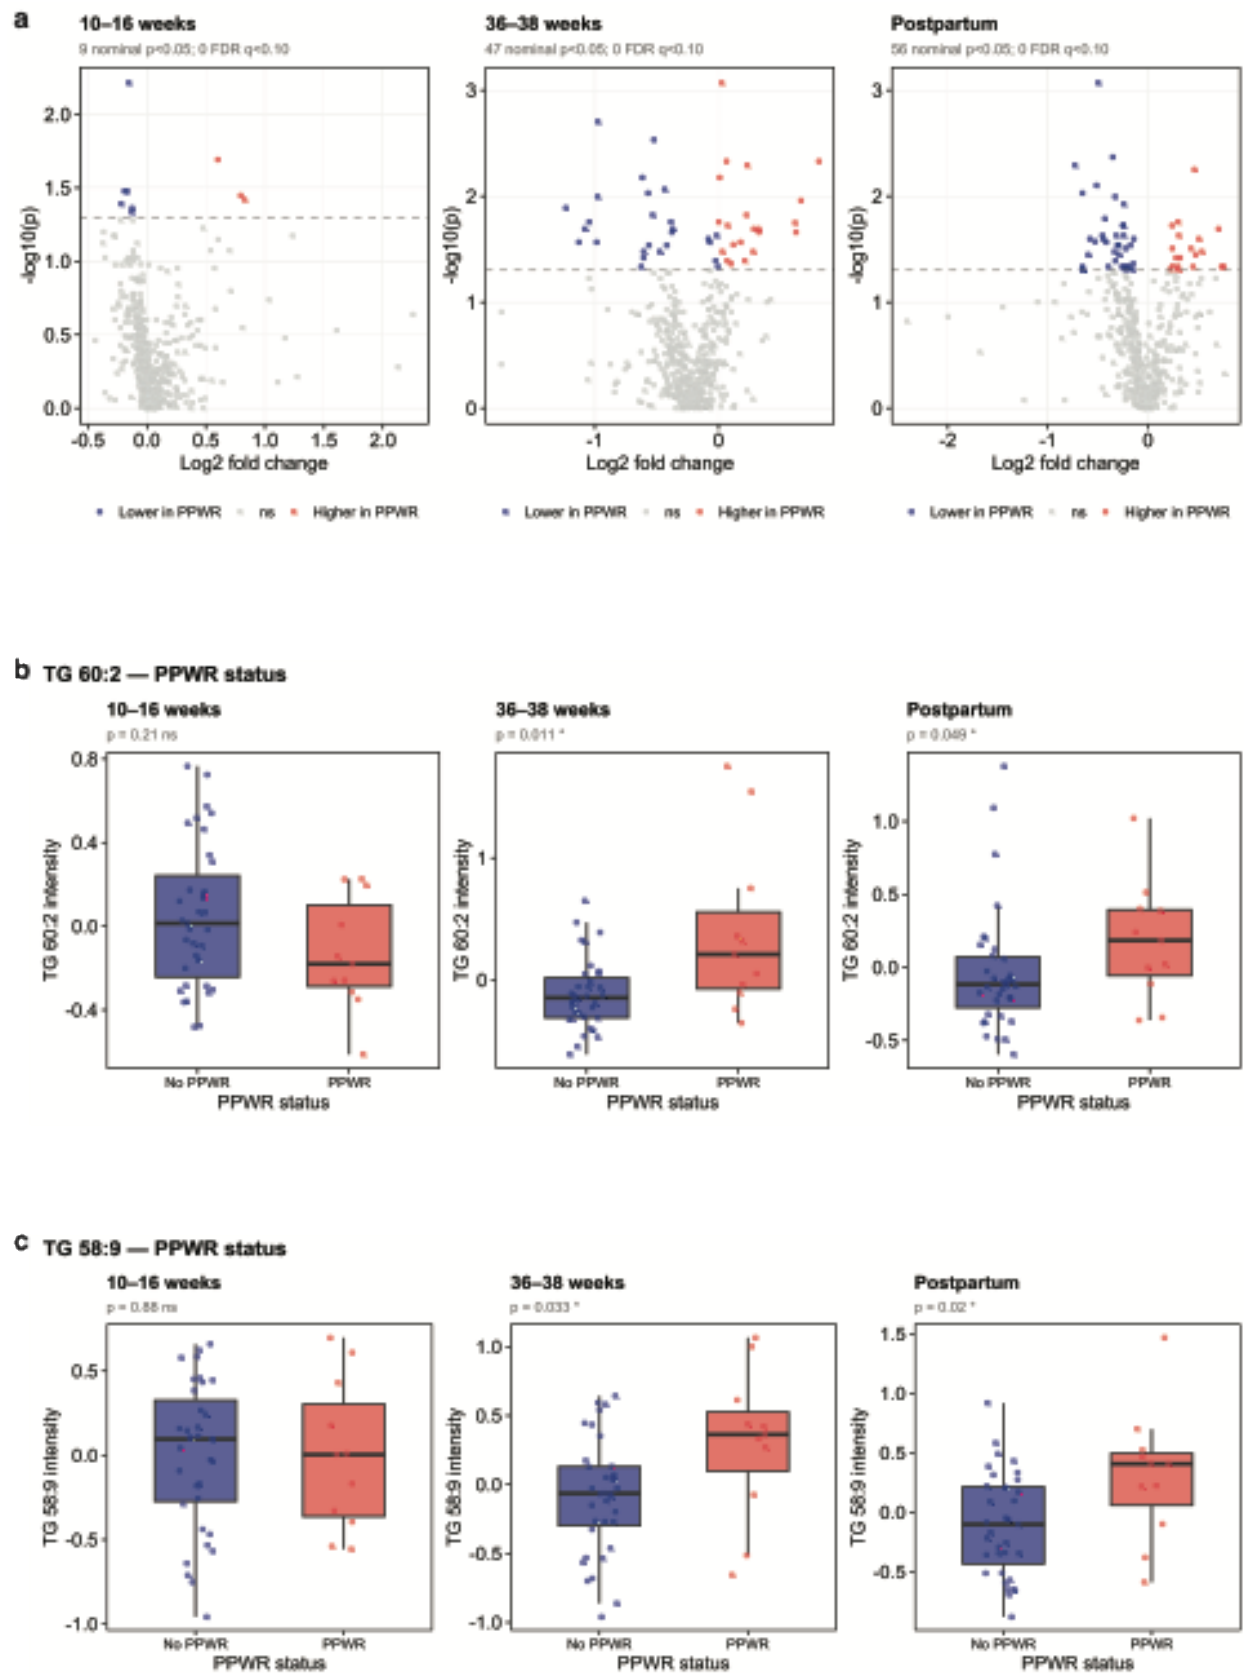

Figure S – Differential lipid analysis PPWR 48 samples

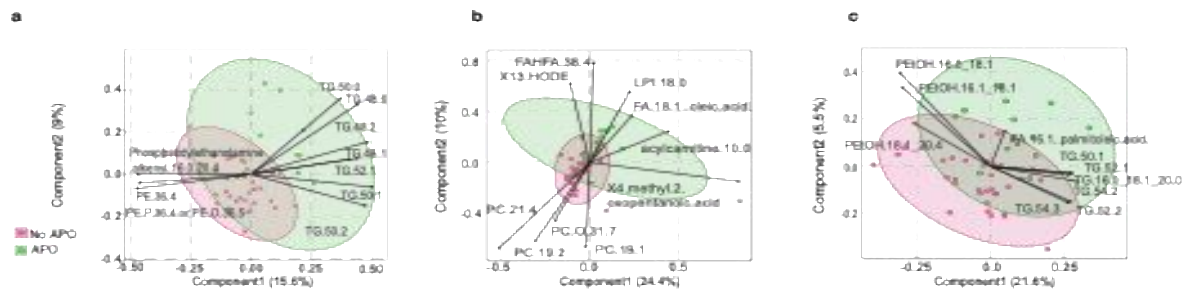

Figure S –PLSDA APO

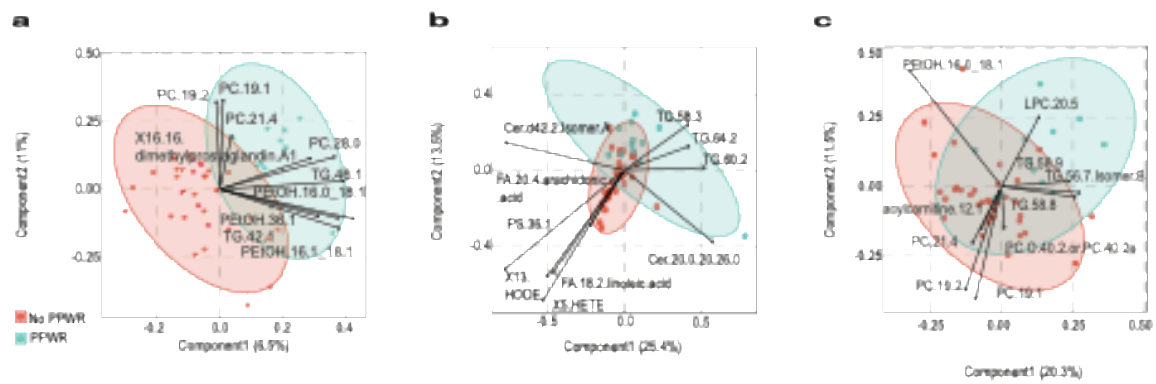

Figure S –PLSDA PPWR
